

Dear Judiciary Committee,

I urge you to oppose HB 6335. This is wrong that someone can have their civil rights stripped and be forced to get rid of their legally owned property without an investigation. This is not process Americans expect.

Where are the penalties for anyone filing a false claim? Why should someone be forced to spend thousands of dollars in lawyer fees to defend against accusations that are not even independently investigated. They cannot even turn their property over to family or friends that can lawfully possess them. This is wrong on so many levels. Please oppose HB6335

Please support HB5390 removing the obligation to retreat in a place of worship.

Finally, I hope that you will also support HB 6491 An Act Permitting Persons To Protect Themselves Using Nonlethal Defensive Instruments which allows Connecticut residents more options in self-defense.

Thank you. Joe Parillo
